Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A government policymaker responsible for national development.	Assess the development level of a country accurately.	It is difficult to manually analyze multiple development indicators.	HDI depends on factors such as life expectancy, education, and income, which are complex and interrelated.	Uncertain about making effective policy decisions to improve people's well-being.
