Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS

- I need accurate and reliable HDI predictions for my research.
- I want to compare development levels across countries and over time.
- The data and insights should be easy to access and understand.

THINKS

- How do different factors like education, income, and life expectancy impact HDI?
- Which countries or regions need more development support?
- Can this data help me publish better research or reports?

PERSONA NAME

(Role / User Type)

Researcher / Academician

*(Student, Researcher,
Academic, or Data Analyst)*

DOES

- Collects socio-economic data for study and analysis.
- Inputs relevant indicators into the HDI prediction system.
- Analyzes results and visualizations for insights.

FEELS

- Curious and eager to discover new insights.
- Frustrated if data is incomplete or hard to interpret.
- Satisfied and confident when results are accurate and useful.
