

Demonstration of Proposed Features

Date	03 July 2026
Team ID	XXXXXX
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Home Page	Displays an introduction to the Human Development Index (HDI) Prediction System and provides navigation to the prediction page.	Implemented	Yes	Successfully demonstrated during application execution.
2	HDI Prediction Form	Allows users to select a country and enter Life Expectancy, Expected Years of Schooling, Mean Years of Schooling, and GNI values.	Implemented	Yes	User inputs are collected successfully.
3	Machine Learning Prediction	Uses the trained Linear Regression model (HDI.pkl) to predict the Human Development Index score.	Implemented	Yes	Prediction generated successfully using the trained model.
4	HDI Classification	Displays the predicted HDI score and classifies it as Low, Medium, High, or Very High Human Development.	Implemented	Yes	Classification logic works correctly.
5	User Interface	Responsive web interface developed using HTML and CSS for easy interaction with the prediction system.	Implemented	Yes	User-friendly interface demonstrated successfully.
6	Flask Web Application	Integrates the machine learning model with the web application and manages navigation between pages.	Implemented	Yes	Application executed successfully on the Flask development server.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
