Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Opens the application. • Selects a country. • Enters life expectancy, education, and income details.	• Submits the input data • Waits for the model to process the data. • Receives the predicted HDI score/category.	• Reviews prediction results. • Analyzes graphs and reports. • Uses insights for decision-making.
Touchpoint <i>What part of the service do they interact with?</i>	• Login page. • Input form. • Country selection menu.	• Prediction button. • Machine Learning model. • Processing interface.	• Results page. • Visualization dashboard. • Generated reports.
Customer Thought <i>What is the customer thinking?</i>	• "I hope the system is easy to use." • "I need accurate country data."	• "Will the prediction be reliable?" • "How long will it take?"	• "What does this HDI score indicate?" • "How can these insights improve policy decisions?"
Customer Feeling <i>What is the customer feeling?</i>	• Curious. • Interested. • Hopeful.	• Expectant. • Slightly anxious. • Engaged.	• Satisfied if results are accurate. • Confident in decision-making.

Process Ownership <i>Who is in the lead on this?</i>	User / Frontend Module	ML Model / Backend Module	Visualization Module /User
Opportunities <i>How can we improve this stage?</i>	• Add input validation. • Provide tooltips and guidance. • Improve UI design.	• Optimize prediction speed. • Improve model accuracy. • Display processing status.	• Add interactive charts. • Generate downloadable reports. • Provide comparative country analysis.
