

Project Demo Planning

Date	03 July 2026
Team ID	XXXXXX
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the importance of Human Development Index (HDI), and describe the problem addressed by the system.	2	Marem Hemalatha
2	Solution Overview	Explain the proposed solution, machine learning approach, dataset, technologies used, and overall system architecture.	3	Jarapala Padma Bai
3	Dataset & Model Development	Demonstrate the dataset, preprocessing steps, feature selection, Linear Regression model training, and model generation (HDI.pkl).	4	Prasanna Kogila
4	Web Application Demonstration	Demonstrate the Flask application by navigating through the Home page, Prediction page, entering input values, and displaying the predicted HDI result.	5	Prasanna Kogila
5	GitHub Repository & Project Structure	Present the GitHub repository, explain the folder structure, project files, and README, and briefly discuss testing and deployment readiness.	3	Marem Hemalatha
6	Conclusion & Future Enhancements	Summarize the project outcomes, discuss limitations, future improvements, and thank the evaluators.	2	Sailekhana Thuraka

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the Human Development Index, its significance, and the objective of developing an ML-based prediction system.
2	Solution Overview	Present the project architecture, dataset, Linear Regression model, technologies used, and workflow.
3	Live Feature Demonstration	Launch the Flask application, navigate through the Home page, Prediction page, enter sample values, and demonstrate the HDI prediction result
4	Q&A Session	Answer questions related to the dataset, machine learning model, Flask application, project documents, and future enhancements.
